

Fewcott House

Fewcott House Nursing Home receives national award for providing Gold Standards end of life care!

Fewcott House has been awarded a national Gold Standards Framework Quality Hallmark Award in recognition of the excellent end of life care they provide.

Fewcott House received the award at the Gold Standards Framework annual conference and awards ceremony on Friday 27th September at BMA House in London - a celebration of the UK's exceptional health and social care providers for care in the final year of life.

Fewcott House was one of 140 organisations from across the country receiving the award in London (98 care homes, 1 primary care team, 5 domiciliary care agencies, 8 retirement villages, 1 prison healthcare team and 27 hospital wards).

Julie Armstrong-Wilson, Chief Operating Officer for Gold Standards Framework said: "Congratulations to all the organisations who have successfully achieved accreditation and received the Quality Hallmark Award this year. The standards of care and compassionate cultures that have been observed is truly inspiring, showing a commitment to ensuring people receive the right care at the right time which has a positive impact on the people cared for and their families. Listening to what matters most to each and every individual and providing care in accordance with their goals, wishes and preferences is the Gold Standards and these organisations are delivering it. Within the awards there are a number of organisations that have demonstrated their sustainability of Gold Standards Framework multiple times with six of the care homes achieving Gold Standards Framework accreditation six times. The Gold Standards Framework team are so very proud of all our Award Winners; with our ageing population it is so important we enable them to live well and when the time comes deliver quality care in their final year / days of life. A huge well done to you all!"

Gold Standards Framework provides end of life care training and accreditation for frontline staff in health and social care. Everybody deserves gold standards end of life care.

WELL DONE US!!
